US 301 Project Development
DRAFT Environmental Impact Statement
November 2006

TABLE OF CONTENTS

I.	PURPOSE AND NEED	I-1
A.	Introduction.....	I-1
1.	Background.....	I-1
2.	US 301	I-2
3.	Project Area	I-4
B.	Project Purpose	I-4
C.	Project Need.....	I-4
1.	Safety	I-6
2.	Traffic Growth: Existing and Future Conditions	I-7
a.	US 301, Southwest of Middletown.....	I-9
b.	US 301/SR 896 at Summit Bridge	I-10
c.	SR 299, Middletown to Odessa	I-10
d.	SR 896 (Boyds Corner Road) at Jamisons Corner.....	I-10
3.	System Deficiencies.....	I-11
4.	Demographics and Land Use	I-11
5.	Other Transportation Projects	I-11
a.	Rail Passenger Service.....	I-12
b.	Enhanced Transit Service and Transit Supportive Infrastructure	I-12
c.	DelTRAC (ITS) Improvements	I-12
d.	US 301 Northbound Weigh and Inspection Station.....	I-12
e.	Bicycles, Greenways and Trails.....	I-13
f.	Southern New Castle County Local Road Circulation Plan	I-13
g.	Improvements in Maryland.....	I-15
D.	Conclusion	I-15
II.	ALTERNATIVES	II-1
A.	No-Build Alternative, Programmed Improvements and Multi-Modal Elements	II-2
1.	Description of the Existing Roadway	II-2
a.	US 301, Delaware/Maryland State Line to Chesapeake and Delaware Canal	II-2
b.	US 301/SR 896, C&D Canal to I-95.....	II-2
c.	SR 896 (Boyds Corner Road), US 301 to SR 1	II-3
2.	Programmed Improvements.....	II-3
3.	Multi-Modal Improvements.....	II-5

TABLE OF CONTENTS

B.	Alternatives Not Carried Forward for Further Consideration.....	II-5
1.	Toll Free Facility.....	II-5
2.	Alignment Alternatives.....	II-5
a.	Red Alternative	II-5
b.	Orange Alternative.....	II-6
c.	Blue Alternative, North and South Options	II-8
3.	Purple and Green Alternatives without Spur Road.....	II-8
C.	Alternatives Retained for Detailed Evaluation	II-9
1.	General Engineering Design Concepts	II-11
a.	US 301 Mainline.....	II-11
b.	US 301 Spur Road	II-13
c.	Interchange Ramps.....	II-13
d.	Local, Collector and Arterial Roads	II-13
2.	Yellow Alternative.....	II-13
a.	State Line to Mount Pleasant	II-16
b.	Boyds Corner Road to SR 1.....	II-16
c.	SR 15/SR 896 Interchange.....	II-16
3.	Purple Alternative	II-16
a.	State Line to Armstrong Corner Road Area	II-17
b.	Boyds Corner Road to SR 1	II-17
c.	Armstrong Corner Road Area to Summit Bridge - Spur Road.....	II-17
4.	Brown Alternative.....	II-18
a.	State Line to North of Churchtown Road	II-18
b.	North of Churchtown Road to SR 1 – North Option	II-18
c.	North of Churchtown Road to SR 1 – South Option	II-18
5.	Green Alternative.....	II-19
a.	State Line to Armstrong Corner Road Area	II-19
b.	Mount Pleasant to SR 1 - North Option.....	II-19
c.	Mount Pleasant to SR 1 - South Option.....	II-20
d.	Armstrong Corner Road Area to Summit Bridge - Spur Road.....	II-20
6.	Comparison of Engineering Features.....	II-20
D.	Alignment Options Considered.....	II-22
1.	Armstrong Corner Road (ACR) Area Options –Purple and Green Alternatives.....	II-22
a.	ACR Area Option 1	II-24
b.	ACR Area Option 2	II-24
c.	ACR Area Option 2A.....	II-24
d.	ACR Area Option 3	II-24

TABLE OF CONTENTS

2.	Boyds Corner Road (BCR) Area Options – Yellow and Purple Alternatives	II-25
a.	BCR Area Option 1	II-25
b.	BCR Area Option 2	II-26
c.	BCR Area Option 3	II-26
d.	BCR Area Option 4	II-26
3.	Summit Interchange (SI) Area Options – Yellow, Purple and Green Alternatives.....	II-27
a.	SI Area Option 1 – Yellow Alternative	II-28
b.	SI Area Option 2 – Yellow Alternative	II-28
c.	SI Area Option 1 – Purple and Green Alternatives.....	II-28
d.	SI Area Option 2 - Purple and Green Alternatives	II-29
e.	SI Area Option 3 – Purple and Green Alternatives.....	II-29
f.	SI Area Option 3B - Purple and Green Alternatives.....	II-29
g.	SI Area Option 4 – Purple and Green Alternatives.....	II-29
III.	ENVIRONMENTAL RESOURCES AND CONSEQUENCES	III-1
A.	Socioeconomic Environment	III-4
1.	Regional Overview	III-4
a.	Middletown-Odessa-Townsend Planning Area	III-4
b.	Transportation Network	III-7
c.	Project Conformity with State and Regional Plans.....	III-9
2.	Land Use	III-10
a.	Existing Conditions.....	III-10
b.	Environmental Consequences and Mitigation	III-10
3.	Planned Development	III-13
a.	Existing Conditions.....	III-13
b.	Environmental Consequences and Mitigation	III-18
4.	Farms and Farmland	III-19
a.	Existing Conditions.....	III-19
b.	Environmental Consequences and Mitigation	III-22
5.	Population and Housing.....	III-24
a.	Existing Conditions.....	III-24
b.	Environmental Consequences and Mitigation	III-26
6.	Communities and Community Facilities	III-28
a.	Existing Conditions.....	III-28
b.	Environmental Consequences and Mitigation	III-32
7.	Environmental Justice	III-34
a.	Existing Conditions.....	III-34
b.	Environmental Consequences and Mitigation	III-36

TABLE OF CONTENTS

8.	Economic Resources.....	III-36
a.	Existing Conditions.....	III-36
b.	Environmental Consequences and Mitigation	III-39
9.	Visual and Aesthetic Characteristics	III-40
a.	Existing Conditions.....	III-40
b.	Environmental Consequences.....	III-41
c.	Mitigation.....	III-41
B.	Cultural Resources	III-42
1.	Existing Conditions.....	III-42
a.	Architectural Resources	III-42
b.	Archeological Resources	III-46
2.	Environmental Consequences.....	III-47
a.	Architectural Resources	III-48
b.	Archeological Resources	III-50
C.	Air Quality	III-51
1.	Relevant Pollutants	III-52
2.	National and State Ambient Air Quality Standards.....	III-54
3.	Air Quality Regulations and Status of the Project Area	III-54
a.	Monitored Air Quality	III-55
b.	Conformance with Air Quality Standards.....	III-57
4.	Project Level Emissions Analysis (Microscale Analysis)	III-57
a.	Description of Impacts.....	III-58
b.	Consequences and Potential Mitigation.....	III-64
D.	Noise	III-64
1.	Existing Conditions.....	III-64
a.	Criteria for Determining Noise Impacts	III-64
b.	Analysis Procedures and Methodology	III-65
c.	Measured and Predicted Existing Noise Levels.....	III-66
2.	Environmental Consequences.....	III-75
a.	Predicted Future Noise Levels	III-75
b.	Impact Assessment/Abatement.....	III-82
c.	Impact Assessment/Abatement Conclusions	III-88
3.	Construction Noise.....	III-89
E.	Hazardous Materials Sites.....	III-89
1.	Existing Conditions.....	III-89
2.	Environmental Consequences and Mitigation	III-93

TABLE OF CONTENTS

F. Natural Environment.....	III-95
1. Topography	III-95
a. Existing Conditions.....	III-95
b. Environmental Consequences.....	III-95
2. Geology.....	III-95
a. Existing Conditions.....	III-95
b. Environmental Consequences	III-99
3. Soils.....	III-100
a. Existing Conditions.....	III-100
b. Environmental Consequences	III-107
4. Groundwater	III-108
a. Existing Conditions.....	III-108
b. Environmental Consequences	III-111
5. Surface Water and Water Quality	III-111
a. Surface Water.....	III-111
b. Water Quality.....	III-118
6. Waters of the United States, including Wetlands	III-121
a. Existing Conditions.....	III-121
b. Environmental Consequences	III-125
c. Mitigation.....	III-133
7. Floodplains.....	III-133
a. Existing Conditions.....	III-133
b. Environmental Consequences	III-134
c. Mitigation.....	III-138
8. Vegetation and Wildlife.....	III-138
a. Terrestrial Habitat and Wildlife	III-138
b. Aquatic Biota	III-146
9. Rare, Threatened and Endangered Species	III-149
a. Existing Conditions.....	III-149
b. Environmental Consequences	III-151
10. Wild and Scenic Rivers.....	III-154
a. Existing Conditions.....	III-154
b. Environmental Consequences	III-155
11. Coastal Zone Management Area.....	III-155
a. Existing Conditions.....	III-155
b. Environmental Consequences	III-156
12. Unique, Sensitive and other Natural Areas.....	III-156
a. Existing Conditions.....	III-156
b. Environmental Consequences and Mitigation	III-160

TABLE OF CONTENTS

G. Traffic, Travel Patterns and Toll Diversions	III-161
1. Traffic Forecasts	III-161
a. Land Use	III-161
b. Network/Roadway Improvements	III-161
c. Daily Forecasts.....	III-162
d. Peak Hour Forecasts	III-164
2. Traffic Analysis	III-164
a. Methodology	III-164
b. Results.....	III-164
3. Safety Analysis	III-169
a. Existing Roads	III-170
b. Existing Roads plus Build Alternatives	III-170
4. Travel Patterns	III-171
a. Existing Conditions.....	III-171
b. Methodology for Evaluation of Impacts.....	III-173
c. Results.....	III-173
d. Mitigation.....	III-177
H. Energy	III-179
I. Temporary Construction Impacts	III-179
1. Traffic Detours and Maintenance of Traffic.....	III-179
2. Air Emissions.....	III-180
3. Construction Noise.....	III-180
4. Construction Impacts on Natural Resources.....	III-180
J. Secondary and Cumulative Effects Analysis (SCEA)	III-181
1. SCEA Scoping	III-181
a. Geographic Boundary	III-182
b. SCEA Temporal Boundary (Time Frame).....	III-184
c. Resources Directly Affected by the Alternatives.....	III-186
d. Other Projects within the SCEA Boundary	III-186
2. Analysis Methodology	III-187
a. Trend Analysis	III-187
b. Interviews.....	III-187
c. Map Overlays.....	III-188
3. Land Use and Development Trends.....	III-188
a. Past Land Use: Historic Changes and Trends.....	III-188
b. Existing Land Uses	III-188
c. Areas of Future Development.....	III-191
d. Land Use Conclusions	III-193

TABLE OF CONTENTS

4.	Analysis of Secondary and Cumulative Effects.....	III-193
a.	Floodplains.....	III-195
b.	Waters of the US including Wetlands.....	III-195
c.	Farmland	III-196
d.	Forests	III-196
e.	Rare, Threatened and Endangered Species.....	III-197
f.	Historic Properties	III-197
g.	Community and Socioeconomic Resources.....	III-198
5.	Secondary and Cumulative Effects Analysis Conclusions	III-199
K.	Relationship between Local Short-Term Uses of Man's Environment and the Maintenance of Enhancement of Long-Term Productivity	III-200
L.	Irreversible and Irretrievable Commitment of Resources.....	III-200
IV.	COMMENTS AND COORDINATION	IV-1
A.	Public Involvement Program	IV-1
1.	Public Outreach.....	IV-1
a.	Listening Tour.....	IV-1
b.	Mailing List.....	IV-3
c.	Individual and Community Group Meetings	IV-3
d.	Project Office	IV-4
e.	Website	IV-4
f.	Public Workshops	IV-4
B.	Agency Coordination	IV-8
1.	Agency Coordination Meetings	IV-9
2.	Field Views and Reviews – ACOE	IV-10
3.	Field Views and Reviews – DNREC	IV-11
4.	Field Views and Reviews – Cultural Resources Evaluation – Section 106.....	IV-12
C.	Toll Diversion Coordination	IV-12
V.	PREFERRED ALTERNATIVE RECOMMENDATION	V-1
A.	Yellow Alternative.....	V-1
B.	Purple Alternative	V-2
C.	Brown Alternative North and South Options.....	V-3
D.	Green Alternative North and South Options.....	V-4
1.	Green North Alternative: Armstrong Corner Road (ACR) Area Options	V-5
a.	ACR Area Option 1	V-5
b.	ACR Area Option 2	V-5

**US 301 Project Development
DRAFT Environmental Impact Statement
November 2006**

TABLE OF CONTENTS

c. ACR Area Option 2A.....	V-6
d. ACR Area Option 3	V-6
2. Green North Alternative: Summit Interchange (SI) Options.....	V-7
a. SI Area Option 1	V-7
b. SI Area Options 2 and 2A.....	V-7
c. SI Area Options 3 and 3A.....	V-8
d. SI Area Options 3B and 3BA.....	V-8
e. SI Area Options 4 and 4A.....	V-8

LIST OF TABLES

Table I-1:	Existing and Projected Daily Traffic and Level of Service for Significant Locations in the Project Area (No-Build)	I-9
Table I-2:	Southern New Castle County Local Road Circulation Plan	I-13
Table II-1:	Comparison of Engineering Features and Costs	II-21
Table II-2:	Alternatives Options Considered	II-22
Table II-3:	Purple and Green Alternatives Impacts Comparison of the Armstrong Corner Road Area Options	II-25
Table II-4:	Yellow and Purple Alternatives Impacts Comparison of the Boyds Corner Road Area Options	II-27
Table II-5:	Yellow Alternative Impacts Comparison of the Summit Interchange Area Options	II-28
Table II-6:	Purple and Green Alternatives Impacts Comparison of the Summit Interchange Area Options.....	II-30
Table III-1:	Total Population and Household Trends in the Middletown-Odessa-Townsend Planning District, 1970 to 2025.....	III-5
Table III-2:	Existing Land Use in the Project Area.....	III-10
Table III-3:	Acres to be Converted from Current Uses.....	III-13
Table III-4:	Planned Development in the Project Area ¹ within Unincorporated Areas of New Castle County	III-13
Table III-5:	Planned Residential Development in Middletown and Townsend.....	III-17
Table III-6:	Non-Residential Planned Development in Middletown ¹	III-18
Table III-7:	LESA Model Scores for Impacted Farm Parcels.....	III-22
Table III-8:	Potential Impacts to Prime Farmland Soils, Active Farms, and Agricultural Preserves.....	III-23
Table III-9:	Population and Housing in the Project Area.....	III-24
Table III-10:	Population Age Distribution in the Project Area	III-26
Table III-11:	Property Impacts by Alternative	III-27
Table III-12:	Community Profiles and Alternatives Adjacent	III-31
Table III-13:	Community Facilities in the Project Area.....	III-32
Table III-14:	Residential Community Impacts Summary	III-33
Table III-15:	Racial Distribution in the Project Area	III-35
Table III-16:	Low-Income Populations in the Project Area	III-35
Table III-17:	Occupations of the Employed Population in the Project Area	III-37
Table III-18:	Industries Employing those in the Project Area	III-37
Table III-19:	Mode of Commuting.....	III-38
Table III-20:	Household Incomes in 1999, in \$1000s, in the Project Area.....	III-39
Table III-21:	Per capita and Individual Earnings in the Project Area	III-39
Table III-22:	Historic Properties ¹ within the Area of Potential Effect.....	III-45
Table III-23:	Potential Effects of the Retained Alternatives on Historic Properties	III-49

LIST OF TABLES

Table III-24:	Archeological Potential of the Alternatives within the Limit of Disturbance	III-51
Table III-25:	National and State Ambient Air Quality Standards	III-55
Table III-26:	Air Quality Summary for the Project Corridor Delaware Air Quality Monitoring Sites Highest Recorded Levels During 2004.....	III-56
Table III-27:	Air Quality Receptor Locations.....	III-58
Table III-28:	Predicted CO Concentration, 2010	III-61
Table III-29:	Predicted CO Concentration, 2030	III-62
Table III-30:	CO Concentration at Signalized Intersections (ppm)	III-63
Table III-31:	FHWA Noise Abatement Criteria/Activity Relationships.....	III-65
Table III-32:	Existing Noise Levels	III-69
Table III-33:	Predicted Design Year 2030 Noise Levels	III-76
Table III-34:	Yellow Alternative Abatement Cost Analysis.....	III-83
Table III-35:	Purple Alternative Abatement Cost Analysis	III-84
Table III-36:	Brown Alternative North Option Abatement Cost Analysis	III-85
Table III-37:	Brown Alternative South Option Abatement Cost Analysis	III-86
Table III-38:	Green Alternative North Option Abatement Cost Analysis	III-87
Table III-39:	Green Alternative South Option Abatement Cost Analysis	III-88
Table III-40:	DNREC LUST Sites with Documented or Suspected Contamination.....	III-89
Table III-41:	DNREC Site Investigation and Restoration Sites	III-93
Table III-42:	Summary of Contaminated Sites by Build Alternative.....	III-93
Table III-43:	Soil Series in Project Area	III-100
Table III-44:	Prime Farmland Soils Located Along Project Alternatives.....	III-101
Table III-45:	Soils of Statewide Importance Located Along Project Alternatives	III-104
Table III-46:	Hydric Soils Located Along Project Alternatives.....	III-104
Table III-47:	Soils Impacts (Acres).....	III-107
Table III-48:	Alternatives Impervious Surface Additions.....	III-115
Table III-49:	Potential Impacts to Surface Waters	III-115
Table III-50:	Water Quality Data for Surface Water Features within the Project Area.....	III-119
Table III-51:	Potential ACOE and DNREC Jurisdictional Impacts	III-126
Table III-52:	Individual Wetlands Impacts of the Alternatives.....	III-127
Table III-53:	Floodplain and Tax Ditch Impacts.....	III-137
Table III-54:	Forest Stands by Association	III-140
Table III-55:	Potential Forest Impacts (in acres).....	III-145
Table III-56:	2030 Daily Traffic Projections (ADT) ¹	III-162
Table III-57:	Traffic Peak Hour Operational Analyses at Key Locations.....	III-165

LIST OF TABLES

Table III-58:	Traffic Analyses Results – Existing Intersections, Interchanges and Roadway Segments	III-167
Table III-59:	Traffic Analyses Results – New Intersections, Interchanges and Roadway Segments South of the Canal*	III-168
Table III-60:	2030 Estimated Number of Traffic Accidents per Million-Vehicle Miles (MVM) on Existing Roads	III-170
Table III-61:	Existing (2003) and Estimated 2030 Accident Rates along Major Study Area Routes	III-171
Table III-62:	Daily (2006) Traffic Volumes	III-172
Table III-63:	Planned Improvements in Project Area	III-176
Table III-64:	Development Projects within the SCEA Boundary	III-186
Table III-65:	Current (2002) Land Use within the SCEA Boundary	III-189
